BRAND VAN EGMOND **2016**

Welcome...

Every year we at BRAND VAN EGMOND strive to use all our knowledge and experience in order to create some of the most astounding lighting sculptures.

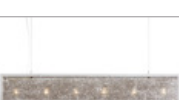

We are constantly inspired by the world around us, the people we meet and the beautiful projects we are invited to be part of. In return, we are frequently asked to translate unique lighting wishes into handcrafted reality.

Partners like Louis Vuitton, Chopard and the Four Seasons Hotels invited BRAND VAN EGMOND to create tailor-made lighting solutions for their spaces. We welcome everybody who wants to see our designs, or would like personal advice from William Brand and his team, to our office and ateliers in Naarden, The Netherlands.

EVE

Design by William Brand

To be human, is to be aware that there are forces greater than ourselves. From the majestic power of nature, until the longings deep within our soul. With an elegant twist, although with an undeniable force behind it, the new Eve is crafted. The fruit she carries is tempting.... will the apple be eaten, or not?

Fractal

Design by William Brand

Our brains are set up to bring order in chaos, find logic in confusion and recognise patterns in the opaque. However, what to make of the puzzle of the exact yet endless repetition found at times around us? Fractal is a natural phenomenon as well as a mathematical set that exhibits a repeating pattern.

The organised chaos of the reflecting elements of the Fractal dispenses the light beautifully in all directions.

Flintstone

Design by William Brand

Retracing our steps through the millennia to the beginning of times, we find ourselves back at the fireplace in the prehistoric cave. Here we realise that the most primal of our needs are safety and warmth. The tree branch and the stone, found at the end of this journey back in time, are combined in this lighting object. Every stone is unique, and captures the emotion of eternity as well as being used as a functional counterweight.

Kelp

Design by William Brand

Kelp creates a dramatic light source which brings an exhilarating sense in the interior. You can use the object in any direction you want. A single object with a ceiling cover can create an organic light or you can form a dancing composition by entwining various lighting objects together.

Sultans of Swing

Design by William Brand

Beauty enables us to find and lose ourselves at the same time. Only when paying careful attention, we sometimes hear the quiet whispers of history from beyond the curtain of time. Embracing both times gone by as well as the present, Sultans of Swing captures Imperial elegance and the sheer pleasure of blowing new life into long-standing shapes and forms.

Diamonds from Amsterdam

Design by Annet van Egmond

Rough and unpolished stones, mined from deep beneath the surface, have for many years been brought to Amsterdam, the City of Diamonds.

Only there do they receive their clarity, colourful light and final shape. Experience the romantic resonance and splendour of heritage jewellery through this lighting object.

Delphinium

Design by William Brand

It is a small step from the purity of nature to the pleasures of life, a step taken at the time of the introduction of Delphinium.

The structure of frivolous iron garlands carrying glass elements evokes an almost secret longing for times bygone.

A new stream of dancing designs comes to the fore, all with a playful hint of hedonism.

Architects and other co-creatives are invited to discover the endless possibilities of customising our lighting sculptures. We hope to inspire you through the different colours and forms of various compositions, just as we enjoy being stimulated by your requests. William Brand's background in architecture gives him the insight to fully understand the demands and challenges of your work. Combined with his experience he is the perfect partner to translate your needs into handcrafted reality.

For our clients we not only customise to different dimensions, but also to different finishes: allowing a truly personal lighting sculpture to be created.

A new finish applicable to several collections is brass grinded.

The possibilities with our lighting sculptures are, in fact, limitless.

We would like to show some of the new possibilities.

William Brand

designer / owner

William was trained as an artist and an architect. He graduated at the Utrecht School of Arts.

As an award-winning furniture designer he for many years designed buildings and interiors for fashion brands, including the headquarters of BRAND VAN EGMOND. His interior designs are always minimalist, in contrast to his lighting designs which have a powerful sculptural presence. He considers his lighting objects to be "the cherry on the cake". His way of working is quite specific. Immediately after defining the concept he starts working in the workshop like a sculptor; experimenting and crafting while having the object grow in his hands, often with unexpected results. Therefore the journey is just as exciting and important as the destination.

Certificate

Each BRAND VAN EGMOND lighting sculpture is issued with a certificate of authenticity and registered with a unique number. This guarantees that you are in possession of an original BRAND VAN EGMOND object.

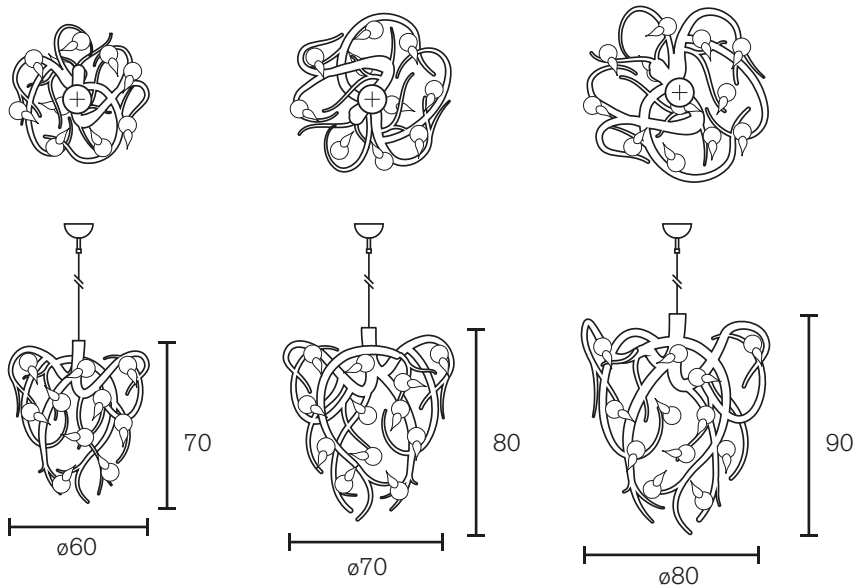

We advise you to keep this certificate together with your receipt of purchase in a safe place.

All lamps are supplied with 1,7 meter chain, 2 meter electrical cable and a ceiling shade. White finish on request.

Collection Floating Candles 2015

The Floating Candles concept offers the possibility to combine several separate candle models, which can differ mutually, into a new fixture. Use them single, hang them in line or create a chandelier. The following options can be selected:

- FCB18** Candle basic model
- FCDL18** Candle on platter, with downlight in it

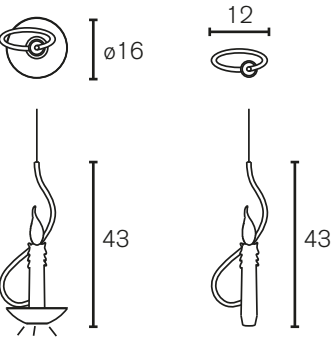

Single
Use a single Floating Candle. This will be supplied with a single ceiling cover

In Line
It is possible to combine a series of several candles in line. This fixture can for example be used above a table or desk. For this fixture we recommend the use of one or more downlights.

Chandelier
Beside this, it is also possible to compose a chandelier, consisting of different Floating Candles.
